ADDITIONAL INFORMATION**7+13. DESCRIBE REACTION(S) continued**

The patient's relevant medical history and concomitant medications were not reported.

The following information was reported: INJECTION SITE PAIN (non-serious), outcome "unknown", described as "It hurt"; INJECTION SITE PRURITUS (non-serious), outcome "unknown", described as "It itched". The action taken for somatropin was unknown.

Causality for "It hurt" and "It itched" was determined associated to device constituent of somatropin (malfunction).

Product Quality Group provided investigational results on 16May2025 for somatropin (device constituent): No further investigation was required as no valid lot number or returned sample was available. This complaint will continue to be trended. If additional information becomes available, this complaint will be reopened.

Additional information: On 28Apr2025, the patient's mother prepared and applied the medication, however, it hurt, and it itched. This was the fifth dose. It had already happened before. It happened the first time it was used. The patient had used another brand, and she did not have any problems.

Follow-up (16May2025): This is a follow-up report from product quality group.
Updated information included: investigation results for somatropin.

Batch/lot number is not provided, and it cannot be obtained.
