ADDITIONAL INFORMATION

7+13. DESCRIBE REACTION(S) continued

The patient's relevant medical history and concomitant medications were not reported.
The following information was reported: INJECTION SITE BRUISING (non-serious), outcome "unknown", described as "bruises were appearing on her skin, especially on her arms and in the belly area where ENBREL has been injected". The action taken for etanercept was unknown.

Additional information: The patient was feeling somewhat anxious and worried about the appearance of these bruises, and mentioned that she did not have an appointment with the rheumatologist until 30Sep2025.

Amendment: This follow-up report is being submitted to amend previous information: event data (removed: Bruise).
